Click Edit Server

The image is a screenshot of a web application window titled "Spillman Login". The window has a dark blue background. At the top, there is a header bar with the title "Spillman Login" and standard window control buttons (minimize, maximize, close). Below the header, there are several input fields and buttons. The first two are text inputs: "dpjcm" and "Password". Below these is a dropdown menu currently showing "Production", followed by a dark blue button labeled "Edit Server". A red arrow points from a callout box labeled "Click Edit Server" to the "Edit Server" button. Below the "Edit Server" button, there are two rows of radio buttons. The first row is labeled "Connection Protocol:" and has two options: "Connected" (selected with a blue dot) and "Mobile" (unselected). The second row is labeled "Configuration Location:" and has two options: "Server" (selected with a blue dot) and "Local" (unselected). Below these are two checkboxes: "Local user" (unchecked) and "Choose custom login" (checked). At the bottom center is a dark blue button labeled "Login". At the very bottom, there is a URL: "https://rcps03.randolphcountync.gov:4443". A mouse cursor is visible at the bottom right of the window.

3. Change Port: from 4443 to 4080. Ensure the Encrypted box is not checked.
