

Randolph County EM is moving towards completing communications interoperability through a VHF radio system with Fire Departments. Please answer the following questions to the best of your ability and **return no later than July 1, 2020**. We plan to move forward very quickly in order to complete each phase of this project by end of year 2020.

Thank you for your continued support and dedication!

Christie McCorquodale

Randolph County EM

*Person completing this survey:*

Name:

Department Name:

Department Address:

Email address:

Phone number:

*Does your primary department have an existing VHF base station?*

*Is this existing VHF base station still operable?*

*Does your primary station have adequate power supply (110 to 12v and at least capable of carrying 25 amps)?*

*Does your primary department have an existing and erected VHF antennae?*

*Does your primary department have existing coax from the base station to antennae?*

*Any additional information you feel is important.*
